Product Description

The Magimix Le Duo Plus is the juicer that TV chefs and culinary schools demand. Stronger and quieter than most juicers on the market, the Le Duo Plus is the perfect tool for soft and hard fruits and vegetables-easily extracting the most out of the produce for juice and purees. The 1000-Watt induction motor has an unheard of 12-year warranty, making quick and quiet work of the juicing and pureeing process. The original French-made Le Duo plus has a large free flow output for thicker juices and a hopper for feeding smaller fruits and cooked vegetables. Magimix products are designed to make life simpler for the serious cook. Most have their roots in professional products originally designed for commercial use. Magimix products work better and are built to last longer. The range of Magimix products combine the best cooking traditions with today's technology and their products are supported by strong warranties and after-sales service. The Le Duo Plus comes with the following: a stainless steel juice extractor, a citrus press attachment, one large and one small citrus cone, a coulis/smoothie maker attachment, a recipe book and a "pusher" to guide fruit

and vegetables into the juicer. With your Le Duo Plus Juicer, making homemade smoothies, juices and purees will be an easy, fun and tasty way to improve the health of you and your family.

Roland Magimix Le Duo Plus Juicer rated 5.0/5.0 based on 2 ratings 2 reviews

I bought this machine after reading Barbara Allan's book "Conquering Arthritis". She got well after a short time of JUICE FASTING and, since I could barely walk, I thought I would try that.

I ordered the machine and started eating mostly raw vegetarian food. When it got here I went shopping for ORGANIC fruit and vegetables and started fasting on cabbage with celery juice, carrot juice, apple ginger lemon juice, cucumber juice with dill, pineapple with carrots and any other combination

I bought a Breville and while it is a quality product I felt there was too much of the fruit and veggies wasted.

This juicer was a definite improvement. There is much less waste and it juices even soft fruit (raspberries, blackberries ect..) that the Breville just threw directly into the waste bin.

Pros:

Less waste

Better tasting juice

Less foam created

Able to juice citrus fruit without peeling it

Can make smoothies

Cons:

A bit harder to clean
